

## **Position: Mid/Senior Frontend React Engineer for Payments and Blockchain Startup**

Coinweb is on a mission to solve blockchain's biggest problems. We're making usable blockchain technology that's more collaborative, better connected, and accessible for everyone. We have a diverse and international team with offices in London, Bangkok, Kyiv and Barcelona.

### **For our overall DeFi projects, we are looking for a Mid/Senior frontend React engineer**

We are looking for experienced React frontend developers that also have some degree of knowledge in other areas like backend development so they can understand and work in end to end projects. You must have demonstrable experience with frontend commercial software development. Your clearly structured and well documented code will be counted more than a formal degree. You must be able to work independently and in collaboration with virtual

### **Requirements**
